## LEARN MORE ABOUT THE TENLEYTOWN TOWER

Neighbors and friends—

Thanks to your strong and positive commitment, the city has halted the construction of a 756-foot broadcast tower on 41st Street between Brandywine and Chesapeake.

Citizens were never informed of a plan to erect this tower in our community. With four of the five largest broadcast towers in the District located in Ward 3 already, many of us believe it's our right—and our duty—to speak out today.

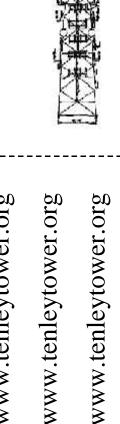

As you may know, American Tower Corporation has sued the city for \$250 million. The case is in federal court and the judge is expected to issue an opinion shortly. His ruling will determine if the case is heard in federal court or is sent back to city agencies for resolution.
